

YOU CHANGED MY LIFE

MEET JOSEY

Josey, a senior at Space Coast High, is the daughter of a single mother of three who is recovering from breast cancer. Her mom has been fighting to keep her family afloat and couldn't afford a computer for Josey. Thanks to Computers Advancing Education, one of our partner agencies, Josey now has her own laptop and is able to do schoolwork at home, as well as research colleges she may want to attend next year.

Your donations really do change lives and strengthen our community! uwspacecoast.org
