

JONATHAN

Big Brothers Big Sisters of Central Florida

**Sometimes all it takes is
one person to change a
child's future.**

At seven years old, Jonathan was struggling in school, living apart from his parents, and searching for stability. His grandmother became his primary caregiver and hoped to find him a positive male role model who could encourage him academically and personally. Through Big Brothers Big Sisters, Jonathan was matched with Calvin, a mentor who shares his love of sports and values education. With Calvin's steady guidance, Jonathan's confidence and grades grew. He recently made the AB honor roll, trains for varsity wrestling, and has become more secure in his reading and writing. Jonathan's story shows how committed mentorship builds trust, inspires growth, and creates hope for the future.

**United is the Way we invest in young people to unlock their potential
and brighten their futures.**
