

MALIK

Boys and Girls Clubs of Central Florida

**Every young person
deserves a place where
they can just be a kid and
dream big.**

At home, Malik carried a heavy load.

He helped care for his mother and looked after his younger siblings, all while trying to keep up with school.

He was only 13, but already putting everyone else first. When the Boys and Girls Club Titusville Clubhouse opened, Malik and his siblings were among the first to walk through the doors. The Club gave him what he needed most: a safe place to recharge, connect, and grow. Caring staff helped him build confidence, discover his strengths, and focus on his future. Now 16, Malik is a steady, positive presence at the Club. He supports staff, welcomes new members, and stays committed to his dream of becoming a doctor. Malik's story shows how a caring environment can change the course of a young life.

United is the Way we help young dreams take root.
